

ENVIRONMENT AND SUSTAINABLE DEVELOPMENT POLICY

Signature on the Saint Lawrence Group (SSLG) has been granted by the Government of Canada the Design, Construction, Financing, Operation, Maintenance and Rehabilitation of the New Bridge on the Saint Lawrence.

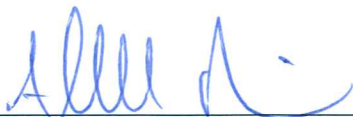

In compliance with the Government of Canada's objectives, SSLG asserts that the protection of the environment, sustainable development and prevention of pollution are core values of the organization and thus is committed to:

- ✓ *Preserving the quality and availability of water from the St. Lawrence River to minimize the impacts of the project on fish habitat and wetlands;*
- ✓ *Minimize inconveniences such as noise, dust and vibration on surrounding communities;*
- ✓ *Address the issue of climate change by compensating for the production of the site greenhouse gas*
- ✓ *Manage the waste produced at site by applying the principle of the 3R, Reduction at source, Reuse and Recycling;*
- ✓ *Deliver the project in accordance with its environmental legal requirements and other requirements to which it subscribes.*

Through our integrated Management System certified to ISO 9001 and ISO 14001 standards, SSLG grows within a context of on-going improvement by establishing measurable objectives and where the employees are concerned with the protection of the environment and sustainable development.

The success of our approach depends first and foremost on the involvement and participation of all of us.
